Dennis:

Just had to write to formally express my thanks for a job well done. I could not have picked a better vendor to refinish my severely blistered and faded fiberglass swimming pool.

Step by step you and your team thoroughly explained the restoration work using the Aquaguard products.

Even more valuable to me was the courteous and professional manner that your team exhibited throughout the process. Your years of experience with this product, its application and customer service are certainly an invaluable asset.

I recommend you, your staff and this product to anyone considering remodeling their swimming pool,

Extremely Satisfied,

Thomas A. Dramis
